

In the frame of Easter celebrations, Albanian Organization of the Order of Malta celebrated with the Roma children, the disabled girls who live at "Missionaries of Charity Mother Teresa" in Shkodra, the children of Malteser Kindergarten, the children of after school program and with the children of Multidisciplinary Center Malteser in Lezha.

During the Holy Week, Malteser volunteers were engaged in dying eggs with the Malteser symbol, at its headquarters, and after these eggs have been given during Easter feast.

In the Village of Peace, the volunteers helped the Roma children dye eggs and decorate them according to their preferences. During the Easter celebrations, the children have been entertained celebrating and eating the Easter cake.

Even at the "Missionaries of Charity", the volunteers have dyed eggs with the girls and have celebrated together. At the "Malteser" Kindergarten, the volunteers have offered to children cakes and the eggs they had previously dyed and played with the children.

Also at the premises of after school and Multidisciplinary Center Malteser in Lezha volunteers and staff together with children have dyed eggs and have distributed sweets to children.

In this way, Malteser not only experiences itself the joy and love of Easter, but also shares it with others.
